CATALOGUE OF THE WORKS

The Bright Side of life

Between paintings and sculptures, acceptance and an optimistic perspective in the face of adversity are embraced.

“As everyday ninjas, we understand that there are no car accidents if we walk, we don't get disheveled if we're bald, and above all, we don't die if we're already dead. After all, true power lies in the serene acceptance of circumstances and in the ability to find beauty in the darkest situations.”

Our exhibition, taking place at Galleria Objets, 92 Brick Lane, aims to captivate visitors and invite them on an introspective journey through the beauty found in the serene acceptance of circumstances.

We invite you to join in on this journey, exploring the “Bright Side of Life.”
